M: Can I buy this book? It's from my favorite science fiction horror series.

W: Didn't you already buy two books the other day? You haven't even started reading them.

M: Well, I plan on starting one of those books this weekend.

W: I think you should finish both of them first, before getting a new one.

41. Which one of the statements is correct?

- a) The woman enjoys reading science fiction horror books.
- b) The man will finish reading both of his books this weekend.
- c) The man has already started reading the two books that he bought.
- d) The woman doesn't think the man should buy a new book now.

Conversation 42

W: It took me such a long time to finish writing this report. I only slept a few hours last night.

M: What do you mean? The report is due next week, right?

W: Didn't you know that there was a mistake in the post on the class website? Professor Williams announced in class last week that the correct due date is today.

M: Oh, no! I guess I was not paying attention when he said that.

LONG CONVERSATIONS

Long Conversation 1

M: Did you see the flowers in our garden?  
W: Are you talking about the tulips that bloomed yesterday?  
M: Yes. They're beautiful. I'm surprised they're so colorful.  
W: Wait until you see the lilies.  
M: The lilies? I thought that lilies are white.  
W: Not all lilies are white. I planted some colored ones.  
M: Have they already bloomed, too?  
W: Not yet. Probably next month, around the middle of May.

Long Conversation 3

M: I want to visit beautiful places in Japan during the summer break. Do you have any suggestions?

W: There are so many. Why don't you search for them on the Internet?

M: I did, and I can't decide, so I want to get recommendations from my really close friends.

W: OK, one place I love is Engetsu Island. That's the nickname for Takashima.

M: Where is that?

W: It's off the coast of Shirahama in Wakayama Prefecture.

M: Is it famous? I've never heard of it.

W: Yes. The Japanese government considers it to be a National Place of Scenic Beauty. I'm surprised you didn't know about it.

55. What are the man and the woman talking about?

- a) The best places to go by ship
- b) The man's travel plans

PART 2: MONOLOGUES

Monologue 1

Most people use ballpoint pens these days, but some still prefer to use fountain pens. Fountain pens have tips that let you create lines with different widths depending on the pressure, speed, and the direction of the lines you write. You normally refill the pens using ink cartridges, which means you can change the color of the ink as much as you like. However, using a fountain pen requires a different technique than using ballpoint pens.

First you must hold the pen properly. It should rest comfortably in your hand. This prevents your hand from getting tired as you write. Next, you must place the tip of the pen on the paper in the proper way. Usually, it is best if you hold the pen at a 45-degree angle. Then you should write using only gentle pressure. Don't press too hard against the paper or you might damage the tip of the pen.

59. What is this monologue mainly about?

- a) The best way to properly use fountain pens
- b) The way to write beautifully with a ballpoint pen
- c) The reason why fountain pens are the best pens to use
- d) The difference between ballpoint pens and fountain pens

60. How can you create different types of lines with a fountain pen?

- a) By holding the pen at a 45-degree angle when writing
- b) By changing the type of ink cartridge you use in the pen
- c) By pressing very hard against the paper when you write
- d) By changing the pressure, speed, and direction you use to write

Monologue 2

A new research study revealed that most elementary schools in America are not giving students enough time to eat the food in their lunch boxes. Researchers have found that children need at least 15 minutes to finish their lunch, but most primary schools only give students 10 minutes before usually letting them play outside. With less time to eat, students are more likely to finish the less healthy food in their lunch boxes first, such as the desserts. This means that the healthier food is eaten last, and many times not even touched at all. A good diet is an important part of a child's ability to focus. Teachers argue that parents should pack only healthy food in their children's lunch boxes, instead of asking the teacher to extend the lunch period. On the other hand, parents think it is the teachers' responsibility to make sure their children have enough time to finish their whole lunch.

61. According to the monologue, which one of the statements is correct?

- a) Parents want teachers to check if their children's lunches are healthy.
- b) Teachers think that parents should pack more delicious food for their children.
- c) Students often cannot finish eating their lunch boxes at school.
- d) Students usually have another class right after they finish eating lunch.

62. According to the monologue, at least how many minutes should elementary school students have for lunch?

- a) 10
- b) 15
- c) 25
- d) 50

Monologue 3

Hundreds of birds fly in a sunny blue sky. The only sounds are bird calls and the soft noise made by tall grass as the water slowly moves them. Hidden in the tall grass, dark green alligators move at the edge of the water.

This is a description of the Everglades, a low, watery, partly coastal area in southern Florida that covers ten thousand square kilometers. The area is filled with a kind of grass called sawgrass that grows in sharp, thin pieces that are one to three meters tall. That's why the Everglades is sometimes called "river of grass."

The area also contains forests of palm trees and pine trees. Beautiful plants and sweet-smelling flowers grow in the Everglades, especially many kinds of orchids. Animal species are plentiful, including colorful birds and butterflies as well as snakes, foxes, frogs and even big cats, called Florida panthers. But probably the most well-known animals in the Everglades are alligators and crocodiles. No other place in the world is home to both.

63. What is this monologue mainly about?

- a) Big cats called Florida panthers
- b) A natural area in southern Florida
- c) The tall, sharp grass called sawgrass
- d) Making a home for animals and plants

64. According to the monologue, what is NOT true about the Everglades?

- a) It is called "river of alligators."
- b) It has forests of palm trees and pine trees.
- c) It is famous for both alligators and crocodiles.
- d) It has many kinds of flowers, especially orchids.
